CANADA!

Canada has an enviable reputation around the world for our steadfast multicultural values.

Our name, Canada has its origin with the local aboriginals, *KANATA*, meaning "Village", was first used by aboriginal youths to direct French explorer Jean Cartier to the place where the people gather together.

Indeed, Canada has become a "Global Village" where all people from various ethnicities gather.

In this festival, we have provided Canadians a taste of Canada's multiculturalism by hosting food from over 10 countries in Pape Village.

This diverse experience is a fundamental tenant on what we value as Canadians. This is why Tasttlig is proud to celebrate Canada's unique multicultural heritage in Taste of Pape Village.

Travel the world in Pape Village on this passport.
